The Dangers Encountered Shooting Big Game & &

Leading English Hunters Tell Which Animals Are Most to Be Feared.

ging the birds of September dreams of the hunt in African

Europe, men who have made a business of following the chase in both Africa and Asia, some for pleasure, some for profit, some for both, and to many of them I have put this question. I can do no better than to give a few of their answers and let the reader judge for himself:

Gen. A. A. A. Kinloch, whose acquaintznce with the big game of India covers a long period and a wide geographical range, says:

Your question as to which I consider the most dangerous animal to encounter when at bay is a difficult one to answer satisfactorily. So much depends upon circumstances, such as the nature of the ground, etc. I have had little experience, having seldom been charged by any animals when on foot. Only elephant, gaur and panther have really 'come for me, and I have always killed or stopped them. I have, of course, often followed up wounded dangerous beasts, but have generally found them more anxious to escape than to fight. In the open, a good shot who is well armed and keeps perfectly cool should nearly always kill or turn any animal. Under such circumstances I think that the elephant is probably the most dangerous, as when his head is raised and his trunk coiled, it is difficult to judge the true line for the brain. In long grass or thick jungle perhaps several animals are about equally dangerous. You may almost tread on a wounded tiger or panther before you

SPRING OF THE LION.

see it, and it may seize you before you can raise a rifle. The buffalo and gaur have a habit of waiting in dense thickets for their pursuer, and are on him before he can see them. A son of mine was following up a wound gaur some time ago in very thick jungle when it suddenly charged him, and knocked him over twice, striking the rifle out of lis hands. Wonderful to relate, he escaped with a few slight bruises. I have only shot one Indian buffalo on foot, and that one had no chance of charging. From the determined way, however, in which I have seen these animals attack elephants, I should say that no more dangerous antagonist exists than a wounded buffalo in high grass. It is extremely difficult to give it a fatal shot, and almost impossible to escape the deadly sweep of the ponderous horns."

Mr. J. G. Millais, whose interesting writings and beautiful drawings of South African game have delighted so many sportsmen, puts in a claim for the Cape buffalo and leopard, and for a third candidate, his choice of which would occasion some surprise, were it not for the accompanying explanation:

"I am afraid," says Mr. Millais, "that my opinion as to the most dangerous beast is not worth very much, as I have killed very few of those with the worst neputation. Perhaps the most tricky animals are the Cape buffalo and the leopnered or in defense of young. I remem- were an eggshell." ber a big grizzly making a so-called charge from a hundred yards' distance and passing with a few yards of me. He big game shooting than most ladies. was not, in my opinion, really charging at all, but merely taking what he thought the most suitable line of retreat. More pen have been killed and injured by leop- in the arenas of native princes a boar ards and Cape buffalo than any other creatures. It is not a pleasant sensation to find a big black bull buffalo facing you within a few yards, as I once experienced.

The mention of African game in the two preceding letters will naturally suggest reference to the opinions of so high an arthority as Mr. F. C. Selous:

"In giving you my opinion as to the lions, leopards, buffaloes, rhinoceroses | when not molested." and elephants, let me first give you the l

Com- on a girl's words. pared with the buffalo, he has the greater ferocity of the flesh-eater, besides place of knowledge. which he has been known to attack and kill a full-grown buffalo. I doubt whether there is any comparison between a tiger and a lion. A boar is the pluckiest animal that walks the jungle, but his strength is not in proportion to his spirit. His short blind rush may be avoided even by an unarmed man on foot, and he rarely turns back to charge again, once he has gone past. A good spear may kill the biggest boar single-handed if the ground is fairly open and his mount is

The wild boar has a warm admirer in Mrs. Alan Gardner, who has seen more

"In my opinion," writes Mrs. Gardner, "a wild boar is the most dangerous of all animals. In the wild beast fights has more than once beaten a tiger in fair fight. As regards the danger to a sportsman following up wounded game on foot. I imagine that there is little to choose between a tiger, elephant, or African buffalo. Save in exceptiona! circumstances, wild beasts rarely attack man unless they are first wounded, though Sir Pertab Singh once told me that in the spring months at Jodhpore an cld wild relative danger to be apprehended from poar will sometimes charge a man even WHEAT-No. 2 red.

SAMPLE OF FUTURE HISTORY

The Way the Securing of a Vice Pres idential Candidate May Be Recorded.

Stealthily the stalwart, determined men surrounded the house, undetected, owing to the darkness and the dense fog that covered everything, relates the Chicago Tribune.
Posting one of their number, fully armed, at every possible avenue of escape, the leader, accompanied by a dozen trusty followers 123 looms and employing 1,042,866 per-

upon whose courage and fidelity he knew he could rely in any emergency, approached a -t a given signal they threw their united weight against it.
The door yielded, and the next moment

Montana, with more than half as many found the man for whom they were search-

ing. He was sitting in the back parlor, sur-He was satting in the back parior, surrounded by his family, unprepared to resist, and evidently taken wholly by surprise.
"Surrender!" cried the leader, pointing his revolver at his nead.

"Gentlemen," said the man, pale but outwardly calm, "I see you have me at a disadvantage. But you need not have brought those handcuffs along. I'll go with you might." He had just been nominated by one of the great political parties for the office of vice president of the United States.

The Preacher's Evidence.

Roland, Ill., June 27 .- Diabetes has so long been looked upon as an incurable form of discoveries of the age. And every day brings forth fresh evidence that Dodd's Kidney Pills will cure Diabetes. Important evidence in their favor is given by Rev. Thos. B. Norman, the well-known Baptist minister here. Mr. Norman says:

Norman says: I had all the symptoms of a bad case of Diabetes and received so much benefit from the use of Dodd's Kidney Pills that I cheerfully recommend them to anyone suffering from that dread disease. Dodd's Kidney Pills will cure the worst form of Diabetes." Dodd's Kidney Pills always cure Diabetes, one of the final stages of Kidney Disease. All the earlier stages, from Backache to Rheumatism, are naturally much more easily cured by the same remedy.

Chicago Decision.

Skin Diseases, Bone Pains, Itchings,

Aching Back, Blood Poison, Eczema, TO PROVE IT, REMEDY SENT FREE,

The above pictures show what Botanic Blood Balm will do clearing the skin, healing all sores and eruptions, making the blood pure and rich. We have confidence in Botanic Blood Balm [B.B.B.] and we send it free, all charges prepaid direct to any sufferer who will write us. We have cured with B.B.B. to stay cured, thousands of men and women, who suffered from all stages of impure blood, after every known remedy, doctors, and specialists had failed. How to tell you have blood disease. How to tell you have blood disease. If you have the tell-tale pimples or eruptions on any part of the body rheumatic aches and pains in bones or joints, aching back, swollen glands, or swellings and risings on the skin; blood feels hot and watery, skin itches and burns, eczema, scabby sores, mucous patches in the mouth, sore throat, scrofula, copper-colored spots hair on eyebrows falling out, boils; carbuncles, rash on the skin, ulcers, weak kidneys; eating, festering sores; you may be certain you suffer from poison in the blood.

Get the poison out of your system

Get the poison out of your system by taking Botanic Blood Balm [B. B. B.] It is a purely vegetable extract, thoroughly tested in hospital and private practice with over 5,000 cures made of the most obstinate cases. Botanic Blood Balm [B,B,B.] heals all sores, stops all aches and pains, reduces all swelings, makes blood pure and rich, completely changing the entire body into a clean, healthy condition, Cancer Cured

Botanic Blood Balm Cures Cancers of all Kinds, Suppurating Swellings, Eating Sores, Tumors, ugly Ulcers. It kills the Cancer Poison and heals the Sores or worst Cancer perfectly. If you have a presistent take Blood Balm and they will disappear before they develop into Cancer. Many apparently hopeless cases of Cancer cured by taking Botanic Blood Balm [BB.]. Sold by all druggists. \$1,00 per large bottle with complete directions for home cure.

For free sample write Blood Balm [BB.]. Describe your trouble, and special free medical advice to suit your case also sent in sealed letter, if already satisfied that B. B. B. is what you need ake a large bottle as directed on label, and when the right quantity is taken a cure is certain, sure and asting. If not cured your money will be refunded.

WHY HOT WEATHER MAKES WOMEN NERVOUS.

A Well Known Canadian Lady Sends Letter of Endorsement to Pe-ru-na.

Miss Mary Burns, 28 Spring Garden Road, Halifax, N. S., writes: "Having used Peruna for indigestion and stomach trouble and to build up a broken down system with the very best results, I am pleased to state my experience with this excellent medicine. I had been troubled with stomach trouble and poor digestion for some years, and although I tried many remedies and dieting, nothing seemed to restore my health until I used Peruna. In three months I had entirely recovered my health and strength."-Mary Burns.

Suggestions by Dr. Hartman.—How to Combat the Nervous Depression Incident to Warm Weather.

Nervousness is very common among women. This condition is due to anaemic nerve centers. The nerve centers are the reservoir for nerve vitality. These centers become bloodless for the want of proper nutrition.

This condition is especially noticeable during the warm season. Every summer an army of invalids are produced as a direct result of weak nervous systems. This could easily be overcome by the use of Peruna. Peruna strikes at the root of the trouble by correcting the digestion. Perfect digestion furnishes increased nutrition for the nerve centers. Perfectly digested food gives these reservoirs of life a vitality which creates

strong, steady nerves, and in this man-ner fortifies and nourishes life. Miss Blanche Grey, a prominent young society woman of Memphis, Tenn., in a recent letter from 174 Alabama street, writes: "To a society woman whose nervous force is often taxed to the utmost from lack of rest and irregular meals, I know of nothing which is of so much benefit as Peruna. I took it a few months ago when I felt my strength giving way, and it soon made itself manifest in giving me new strength and health."—Miss Blanche Grey.

Pe-ru-na Contains no Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. It is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peruna has been used off and on for twenty years. Such a thing could not be possible if Peruna contained any drugs of a narcotic nature.

At this season of the year we are peculiarly liable to inflammations of the stomach and bowels. It is the part of wisdom to learn how to cut them short and in the easiest and quickest manner. Peruna does this by its peculiar power over all forms of catarrhal troubles.
